"THE NONPAREIL"
CORRUGATED GUMMED STUB FILE.

Patented Oct. 27, 1876. Dec. 5, 1876. Nov. 29, 1881.

All difficulty in filing due to curled stubs, so common in other makes of files, is absolutely overcome by our Patented Process of Corrugation which prevents the stubs from curling, insures their remaining flat at all times and permits of ready access to each individual stub. The advantage of this feature will be appreciated by any one who may have attempted to use a file where the stubs were so curled as to make it almost impossible to separate one from the other.

DIRECTIONS FOR FILING.

Moisten the Gummed Stub, but put a strip of oiled paper underneath, to prevent the previous filing from soaking; put your document in accurate position, then withdraw the oiled paper and proceed filing, and when finished, close the covers in order to give the last attachment time to dry under a slight pressure.

Stock Sizes, in 250 and 500 Stubs (gummed): 6x9, 7x11, 8½x9, 9x11, 10x12, 9x13, 9x15, 11x15, 12½x17½. Other sizes made to order at short notice. Ungummed Files made to order only.

No. 2276

Classification of Risks

First class dwellings and contents detached; basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds 1/2 to basis rate; Rate, 15c on \$100.
4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds 1/2 to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue... Rate 17c on \$100.
Exposure and stove-pipe... Rate 25c on \$100.
Exposure and cloth lining... Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class. Tank houses if near dwelling, rate with it. If close to barn, rate with barn.

Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.

Barns, (Exposure), rate 2 1/2 times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100. Steam engines, Boilers, etc. Rate 40c on \$100.

Fruit driers, 80c on \$100. School houses and Churches, detached; Rate, 20c on \$100.

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

Mailed June 18

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

House and Barn No. 1 being situate on the Prospect Road, Eight miles
West of San Jose, Santa Clara Co., Cal.
House and Barn No 2 being situate

1. What is your title to said land? Good - Deed.
2. What incumbrance? 2.500 By whom held? Grand Grange
3. How much land do you own on which the property to be insured is situated, and what is its value?
20 acres, worth \$ 12000 with improvements.
4. What other fire insurance? none
5. Are the premises occupied by owner? yes
6. Do all the stove-pipes go direct into good brick chimneys? yes
7. If the stove pipes pass through wooden partitions or floor, how are they secured?
8. How near to wood? 16 inches
9. Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? yes
10. Will you keep matches in a safe place? yes
11. Do you allow smoking in barns? no
12. Is fire used in buildings except dwelling? no
13. Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? yes
14. Plastered, papered or cloth lined? Paper and Cloth Lining, all closely latched to boards.

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and true
exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the insurance re-
quested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration of 3919.00
DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, ad-
ministrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said
assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part
of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no
artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall be
kept within the building.

IN WITNESS WHEREOF, The signature of the undersigned is affixed, this 12 day of June 1914.

House and Barn No 2 being situate

- What is your title to said land? Deed
- What incumbrance? None By whom held?
- How much land do you own on which the property to be insured is situated, and what is its value?
190 acres, worth \$ 8000.00 with improvements.
- What other fire insurance? None
- Are the premises occupied by owner? Yes
- Do all the stove-pipes go direct into good brick chimneys? Stovepipe passes thru floor into brick chimney.
- If the stove pipes pass through wooden partitions or floor, how are they secured? Safety thimble.
- How near to wood? 2 1/2 inches
- Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? Yes
- Will you keep matches in a safe place? Yes
- Do you allow smoking in barns? No
- Is fire used in buildings except dwelling? Yes in Laundry House - a stovepipe.
- Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? Yes
- Plastered, papered or cloth lined? Cloth lined, closely packed and papered.

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and true exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the insurance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration of Twenty-three Hundred DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, administrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall be kept within the building.

Classification of Risks

First class dwellings and contents detached; basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.

2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.

3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds $\frac{1}{2}$ to basis rate; Rate, 15c on \$100.

4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds $\frac{1}{2}$ to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue... Rate 17c on \$100.

Exposure and stove-pipe... Rate 25c on \$100.

Exposure and cloth lining... Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class.

Tank houses if near dwelling, rate with it. If close to barn, rate with barn.

Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.

Barns, (Exposure), rate $2\frac{1}{2}$ times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100. Steam engines, Boilers, etc. Rate 40c on \$100. Fruit driers, 80c on \$100.

School houses and Churches, detached; Rate, 20c on \$100.

Contents to rate same as buildings in which they are kept.

EXPOSURES

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

Decd. 4: 45 P.M. July 6. 1914.

Delivered - July 14.

NOTICE TO AGENTS.

Gilroy July 13

Santa Clara County Fire Insurance Co.

In regard to my application for insurance on the Barn, would suggest that you change the number of tons of hay to being the policy to 1000⁰⁰, instead of reducing the tonnage. Mr. Carl - your agent - says he figured the hay at 20 tons to make the required 1000⁰⁰, but in reality there are 35 tons in the barn. Enclosed find ~~draft~~ ^{check} for \$8.50 in payment of tax and premium thereon for three years.

Respectfully
Arthur Baldwin
for James T Baldwin.

- Tank houses if near dwelling, rate with it. If close to barn, rate with barn.
- Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.
- Barns, (Exposure), rate $2\frac{1}{2}$ times basis rate; Rate, 25c on \$100.
- Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.
- Dairies and cheese factories; Rate 20c on \$100.
- Steam engines, Boilers, etc. Rate 40c on \$100.
- Fruit driers, 80c on \$100.
- School houses and Churches, detached; Rate, 20c on \$100.
- Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

Improvements and Dwelling - kitchen to be added. Cost about \$50.00 - Bath chimney. Terra-cotta.
NORTH Permission granted for same.
April 27, 1916.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

 2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
 3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds $\frac{1}{2}$ to basis rate; Rate, 15c on \$100.
 4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds $\frac{1}{2}$ to basis rate; Rate 15c on \$100.
- Exposure and terra-cotta flue... Rate 17c on \$100.
Exposure and stove-pipe... Rate 25c on \$100.
Exposure and cloth lining... Rate 20c on \$100.
- Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class. Tank houses if near dwelling, rate with it. If close to barn, rate with barn.
- Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.
Barns, (Exposure), rate $2\frac{1}{2}$ times basis rate; Rate, 25c on \$100.
- Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.
Dairies and cheese factories; Rate 20c on \$100.
Steam engines, Boilers, etc. Rate 40c on \$100.
Fruit driers, 80c on \$100.
School houses and Churches, detached; Rate, 20c on \$100.
- Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Addition of new kitchen, bathroom,
new plumbing, etc. in 1912. - Addition
of \$150.00 in valuation of house.

House and Barn No 2 being situate \$408

1. What is your title to said land? Deed
2. What incumbrance? none By whom held?
3. How much land do you own on which the property to be insured is situated, and what is its value?
1 1/4 76/100 acres, worth \$ 8000.00 with improvements.
4. What other fire insurance? none
5. Are the premises occupied by owner? yes
6. Do all the stove-pipes go direct into good brick chimneys? into Terra-cotta
7. If the stove pipes pass through wooden partitions or floor, how are they secured? none
8. How near to wood?
9. Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? yes
10. Will you keep matches in a safe place? yes
11. Do you allow smoking in barns? no
12. Is fire used in buildings except dwelling? no
13. Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? yes
14. Plastered, papered or cloth lined? cloth-lined, closely tacked and papered

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and true
exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the insurance re-
quested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration of Five Hundred
and thirty-three DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, ad-
ministrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said
assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.
And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part
of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no
artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall be
kept within the building.

Classification of Risks

First class dwellings and contents detached; basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.

2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.

3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds 1/2 to basis rate; Rate, 15c on \$100.

4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds 1/4 to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue Rate 17c on \$100. Exposure and stove-pipe Rate 25c on \$100. Exposure and cloth lining Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class.

Tank houses if near dwelling, rate with it. If close to barn, rate with barn.

Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.

Barns, (Exposure), rate 2 1/2 times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100. Steam engines, Boilers, etc. Rate 40c on \$100. Fruit driers, 80c on \$100.

School houses and Churches, detached; Rate, 20c on \$100.

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

Insured - Sept 11

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

First class dwellings and contents detached; basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
 2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
 3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds ½ to basis rate; Rate, 15c on \$100.
 4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds ½ to basis rate; Rate 15c on \$100.
- Exposure and terra-cotta flue..... Rate 17c on \$100.
Exposure and stove-pipe..... Rate 25c on \$100.
Exposure and cloth lining..... Rate 20c on \$100.
- Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class. Tank houses if near dwelling, rate with it. If close to barn, rate with barn.
- Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.
Barns, (Exposure), rate 2½ times basis rate; Rate, 25c on \$100.
- Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.
Dairies and cheese factories; Rate 20c on \$100.
Steam engines, Boilers, etc. Rate 40c on \$100.
Fruit driers, 80c on \$100.
School houses and Churches, detached; Rate, 20c on \$100.
- Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

Mailed Aug 11.

San Francisco Road.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

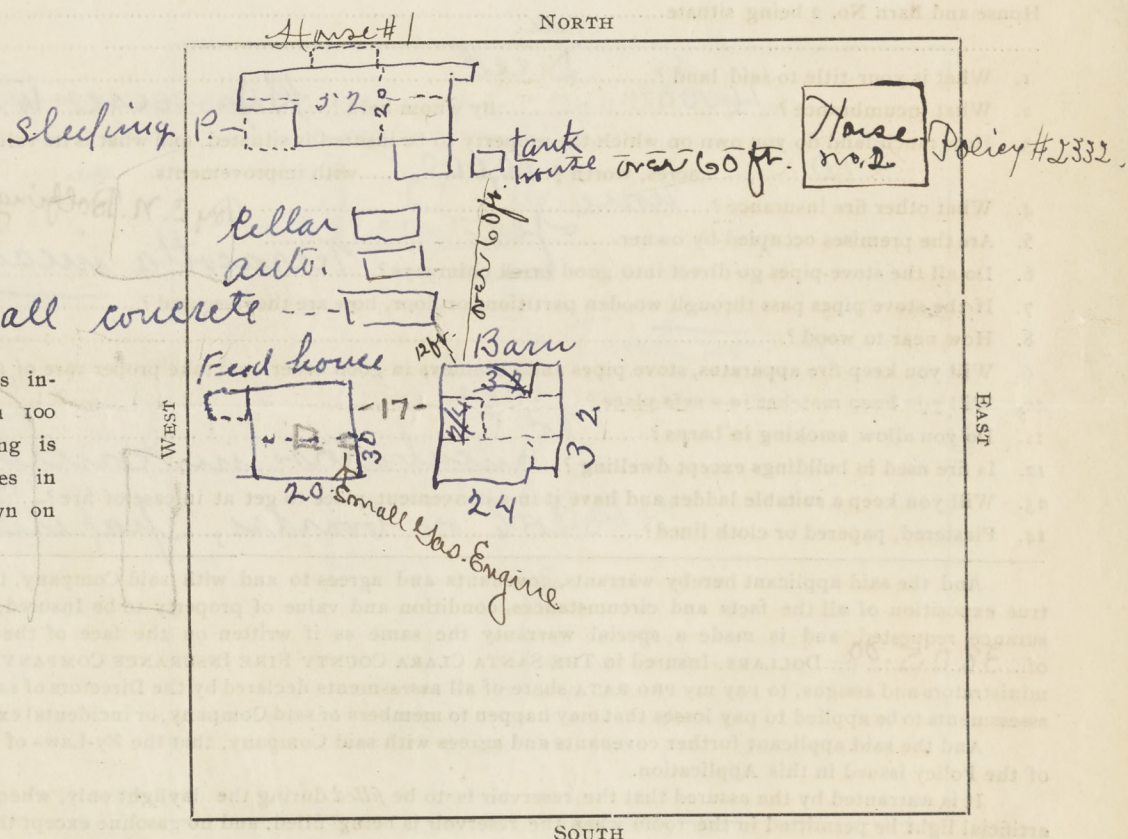

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

Mortgaged on 2 places, to pay mother \$500 per mo. & to pay
niece \$4000. without int. at mother's death. Release in escw.

mailed Aug. 17.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Classification of Risks

First class dwellings and contents detached; basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds 1/2 to basis rate; Rate, 15c on \$100.
4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds 1/2 to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue Rate 17c on \$100.
Exposure and stove-pipe Rate 25c on \$100.
Exposure and cloth lining Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class. Tank houses if near dwelling, rate with it. If close to barn, rate with barn.

Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.

Barns, (Exposure), rate 2 1/2 times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100.

Steam engines, Boilers, etc. Rate 40c on \$100.

Fruit driers, 80c on \$100.

School houses and Churches, detached; Rate, 20c on \$100.

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

Recd. 10 a.m. Sept. 5, 1914.

Mailed Sept 9.

Dear Sirs

In regard Policy # 2396, covering 20 Tons dried
prunes, for \$1600⁰⁰ in fruit house on El Monte Ave.
about 2 miles south of Mountain View, would like, if
this is customary, and I think it is, to have same
transferred to the Packing house of Lawrence Russell
about 1/2 mile north of Saratoga. This will protect
them until graded packed and sold.

Very Truly Yours
R. P. Van Orden

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

Decid - 9 a.m. - Sept. 15, 1914.

Insured - Sept. 19.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

1. What is your title to said land? Deed
2. What incumbrance? none By whom held? —
3. How much land do you own on which the property to be insured is situated, and what is its value? 3 lots,
45x125 ft each, worth \$ 600.00 with improvements.
4. What other fire insurance? none
5. Are the premises occupied by owner? yes.
6. Do all the stove-pipes go direct into good brick chimneys? Into Terra-cotta chimneys.
7. If the stove pipes pass through wooden partitions or floor, how are they secured? Sheet iron plates, together.
8. How near to wood? about 18 inches.
9. Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? yes.
10. Will you keep matches in a safe place? yes.
11. Do you allow smoking in barns? no.
12. Is fire used in buildings except dwelling? no.
13. Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? yes.
14. Plastered, papered or cloth lined? Papered on heavy lining paper, closely tacked to boards.

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and true exposition of all the facts and circumstances, condition and value of property to be insured, and is offered as a basis of the Insurance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration of Three Hundred and Twenty Dollars, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, administrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall be kept within the building.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

Rec'd - 9 a.m. - Sept. 28, 1914.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Dated this twelfth day of April, 1917.

Agent Jed J. Currier Saratoga Congregational Church Applicant

Rate: 30% Chairman Board of Trustees

1. What is your title to said land? Deed.
2. What incumbrance? none By whom held?
3. How much land do you own on which the property to be insured is situated, and what is its value? Parsonage lot. Val \$400.00
Six lots with Church bldg. worth \$1800.00 with improvements.
4. What other fire insurance? none.
5. Are the premises occupied by owner? yes.
6. Do all the stove-pipes go direct into good brick chimneys? yes - in both Church bldg. and Parsonage.
7. If the stove pipes pass through wooden partitions or floor, how are they secured?
8. How near to wood?
9. Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? yes.
10. Will you keep matches in a safe place? yes.
11. Do you allow smoking in barns? no.
12. Is fire used in buildings except dwelling and Church bldg. - no.
13. Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? yes.
14. Plastered, papered or cloth lined? Plastered in all rooms.

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and true
exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the insurance re-
quested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration of Four Thousand
and Fifty DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, ad-
ministrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said
assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part
of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no
artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall be
kept within the building.

IN WITNESS WHEREOF, The signature of the undersigned is affixed, this 30 day of Sept, 1914.

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds ½ to basis rate; Rate, 15c on \$100.
4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds ½ to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue... Rate 17c on \$100.
Exposure and stove-pipe... Rate 25c on \$100.
Exposure and cloth lining... Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class. Tank houses if near dwelling, rate with it. If close to barn, rate with barn.
Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.
Barns, (Exposure), rate 2½ times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100.
Steam engines, Boilers, etc. Rate 40c on \$100.
Fruit driers, 80c on \$100.

School houses and Churches, detached; Rate, 20c on \$100.

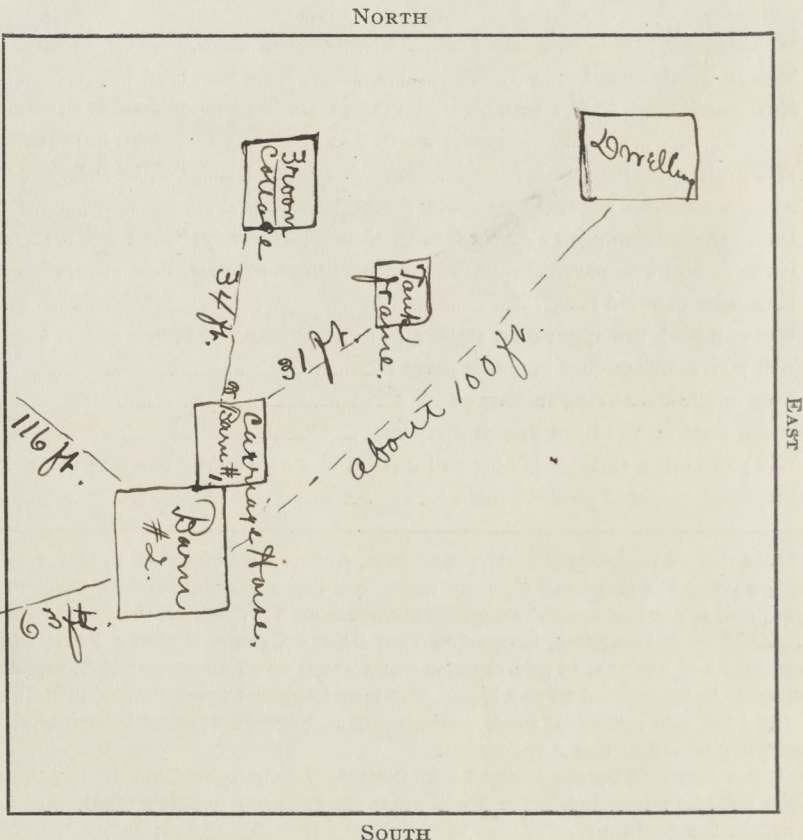

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

Mailed - Dec. 7.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Classification of Risks

First class dwellings and contents detached; basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds $\frac{1}{2}$ to basis rate; Rate, 15c on \$100.
4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds $\frac{1}{4}$ to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue... Rate 17c on \$100.
Exposure and stove-pipe... Rate 25c on \$100.
Exposure and cloth lining... Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class.
Tank houses if near dwelling, rate with it. If close to barn, rate with barn.
Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.
Barns, (Exposure), rate $2\frac{1}{2}$ times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100.
Steam engines, Boilers, etc. Rate 40c on \$100.
Fruit driers, 80c on \$100.

School houses and Churches, detached; Rate, 20c on \$100.

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Ella O. Taylor;

Sec. Santa Clara Co Fire Ins Co

Dear Madam:

I herewith en-
close Transfer Slip, signed
by me, we want better with
the tankhouse at present,
perhaps later when I go to
live on the place I'll get
it insured with other things
or when the old policy expires.

The place is occupied
now by a man and his
wife who have the place
leased; when their lease
expires, if for some reason
I don't move on the place, I
would be glad to get a va-
cancy permit, but I expect
to occupy the buildings as
soon as vacated. - You may
send the policy to Bank of
Milpitas. Yours truly
Carl Anderson

WHICH TWO
adjacent, are occupied by the same person for a
common purpose, so that the buildings, though
separated, constitute a single hazard, they are
not exposures to each other.

2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds $\frac{1}{2}$ to basis rate; Rate, 15c on \$100.
4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds $\frac{1}{3}$ to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue... Rate 17c on \$100.
Exposure and stove-pipe... Rate 25c on \$100.
Exposure and cloth lining... Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class.
Tank houses if near dwelling, rate with it. If close to barn, rate with barn.
Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.
Barns, (Exposure), rate $2\frac{1}{2}$ times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100.
Steam engines, Boilers, etc. Rate 40c on \$100.

Fruit driers, 80c on \$100.
School houses and Churches, detached; Rate, 20c on \$100.

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

NORTH

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

- What is your title to said land? Deed.
- What incumbrance? none By whom held?
- How much land do you own on which the property to be insured is situated, and what is its value?
18 2/3 acres, worth \$ 8000.00 with improvements.
- What other fire insurance? none.
- Are the premises occupied by owners? Yes.
- Do all the stove-pipes go direct into good brick chimneys? Yes.
- If the stove pipes pass through wooden partitions or floor, how are they secured? -
- How near to wood? -
- Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? Yes.
- Will you keep matches in a safe place? Yes.
- Do you allow smoking in barns? no.
- Is fire used in buildings except dwelling? no - Incubators in small shed.
- Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? Yes.
- Plastered, papered or cloth lined? Plastered.

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and true exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the insurance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration of 2441.00 DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, administrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall be kept within the building.

IN WITNESS WHEREOF, The signature of the undersigned is affixed, this 26 day of October 1914.

Classification of Risks

First class dwellings and contents detached, basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds $\frac{1}{2}$ to basis rate; Rate, 15c on \$100.
4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds $\frac{1}{2}$ to basis rate; Rate 15c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are rated with brick chimney, and rate as first-class. Tank houses if near dwelling, rate with it. If close to barn, rate with barn.

Barns or stables, detached and their contents, rate at twice a dwelling: Rate 20c on \$100.

Barns, (Exposure), rate $2\frac{1}{2}$ times basis rate,
Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100
Steam engines, Boilers, etc. Rate 40c on \$100

Fruit driers, 80c on \$100.

School houses and Churches, detached; Rate, 20c on \$100.

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

House and Barn No. 1 being situate on the Infirmary Road, Santa Clara County, Cal.
 House and Barn No 2 being situate

- What is your title to said land? Deed
- What incumbrance? None By whom held?
- How much land do you own on which the property to be insured is situated, and what is its value? 14 acres, worth \$ 12000.00 with improvements.
- What other fire insurance? None
- Are the premises occupied by owner? Yes
- Do all the stove-pipes go direct into good brick chimneys? In Dwelling, yes. - one kitchen or Wash House
- If the stove pipes pass through wooden partitions or floor, how are they secured?
- How near to wood? 4 inches
- Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? Yes
- Will you keep matches in a safe place? Yes
- Do you allow smoking in barns? No
- Is fire used in buildings except dwelling? In House #2 - Wash House
- Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? Yes
- Plastered, papered or cloth lined? Cloth lined, closely tacked, and papered. Work cited above.

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and true exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the insurance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration of Four Thousand DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, administrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall be kept within the building.

IN WITNESS WHEREOF, The signature of the undersigned is affixed, this 22 day of Oct. 1914

Classification of Risks

First class dwellings and contents detached; basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds 1/2 to basis rate; Rate, 15c on \$100.
4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds 1/2 to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue Rate 17c on \$100.
Exposure and stove-pipe Rate 25c on \$100.
Exposure and cloth lining Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class.

Tank houses if near dwelling, rate with it. If close to barn, rate with barn.

Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.

Barns, (Exposure), rate 2 1/2 times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100.

Steam engines, Boilers, etc. Rate 40c on \$100.

Fruit driers, 80c on \$100.

School houses and Churches, detached; Rate, 20c on \$100.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

House and Barn No. 1 being situate on East side of Saratoga and Santa Clara
Road, about 1/2 mile South of Meridian Corners - Santa Clara Co.
House and Barn No 2 being situate.....

1. What is your title to said land? Deed.
2. What incumbrance? \$000.00 By whom held? Security Savings Bank - Loan payable
3. How much land do you own on which the property to be insured is situated, and what is its value?
50 acres, worth \$ 16000.00 with improvements.
4. What other fire insurance? none.
5. Are the premises occupied by owner? No - by hired man.
6. Do all the stove-pipes go direct into good brick chimneys? Yes.
7. If the stove pipes pass through wooden partitions or floor, how are they secured? —
8. How near to wood? —
9. Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? Yes.
10. Will you keep matches in a safe place? Yes.
11. Do you allow smoking in barns? no.
12. Is fire used in buildings except dwelling? no.
13. Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? Yes.
14. Plastered, papered or cloth lined? cloth lined, closely tacked and papered.

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and true
exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the insurance re-
quested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration of Twenty-Six Hun-
dred and Ten DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, ad-
ministrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said
assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part
of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no
artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall be
kept within the building.

What is your title to said land? Deed.
What incumbrance? 2100.00 By whom held? Mrs. Fisher.
How much land do you own on which the property to be insured is situated, and what is its value?
Two acres, worth 10,000.00 with improvements.
What other fire insurance? none.

Are the premises occupied by owner? *Yes.*
Do all the stove-pipes go direct into good brick chimneys? *No. Into Terra-cotta flues*
If the stove pipes pass through wooden partitions or floor, how are they secured? *By cement.*
How near to wood? *Six inches*
Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? *Yes.*
Will you keep matches in a safe place? *Yes.*
Do you allow smoking in barns? *No.*
Is fire used in buildings except dwelling? *No.*
Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? *Yes.*
Plastered, papered or cloth lined? *Cloth lined, closely tacked, and papered.*

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and true statement of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the insurance rating, and is made a special warranty the same as if written on the face of the Policy. For and in consideration of \$10,000.00 DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, administrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy. And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall be kept within the building.

Classification of Risks

First class dwellings and contents detached;
basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds $\frac{1}{2}$ to basis rate; Rate, 15c on \$100.
4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds $\frac{1}{4}$ to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue... Rate 17c on \$100.
Exposure and stove-pipe... Rate 25c on \$100.
Exposure and cloth lining... Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class.

Tank houses if near dwelling, rate with it. If close to barn, rate with barn.

Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.

Barns, (Exposure), rate $2\frac{1}{2}$ times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100.
Steam engines, Boilers, etc. Rate 40c on \$100.

Fruit driers, 80c on \$100.
School houses and Churches, detached; Rate, 20c on \$100.

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

Classification of Risks

First class dwellings and contents detached, basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds $\frac{1}{2}$ to basis rate; Rate, 15c on \$100.
4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds $\frac{2}{3}$ to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue.....	Rate 17c on \$100.
Exposure and stove-pipe	Rate 25c on \$100.
Exposure and cloth lining	Rate 20c on \$100.

Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class. Tank houses if near dwelling, rate with it. If close to barn, rate with barn.

Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.

Barns, (Exposure), rate $2\frac{1}{2}$ times basis rate,
Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories, Rate 20c on \$100
Steam engines, Boilers, etc. Rate 40c on \$100
Fruit driers, 80c on \$100.

School houses and Churches, detached; Rate 20c on \$100.

Contents to rate same as buildings in which they are kept.

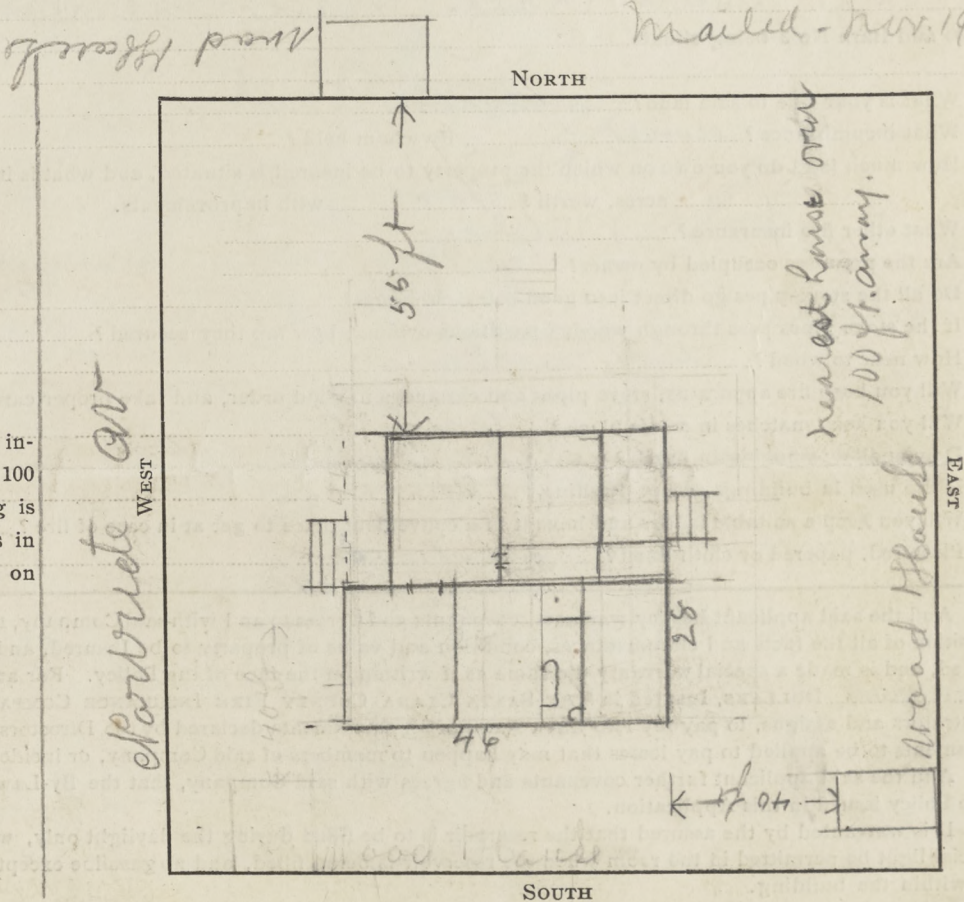

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds $\frac{1}{2}$ to basis rate; Rate, 15c on \$100.
4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds $\frac{1}{2}$ to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue Rate 17c on \$100.
Exposure and stove-pipe Rate 25c on \$100.
Exposure and cloth lining Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class. Tank houses if near dwelling, rate with it. If close to barn, rate with barn.

Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.

Barns, (Exposure), rate $2\frac{1}{2}$ times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100.

Steam engines, Boilers, etc. Rate 40c on \$100.

Fruit driers, 80c on \$100.

School houses and Churches, detached; Rate, 20c on \$100.

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Exposure and cloth lining... Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class. Tank houses if near dwelling, rate with it. If close to barn, rate with barn.

Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.

Barns, (Exposure), rate 2 1/2 times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100.

Steam engines, Boilers, etc. Rate 40c on \$100.

Fruit driers, 80c on \$100.

School houses and Churches, detached; Rate, 20c on \$100.

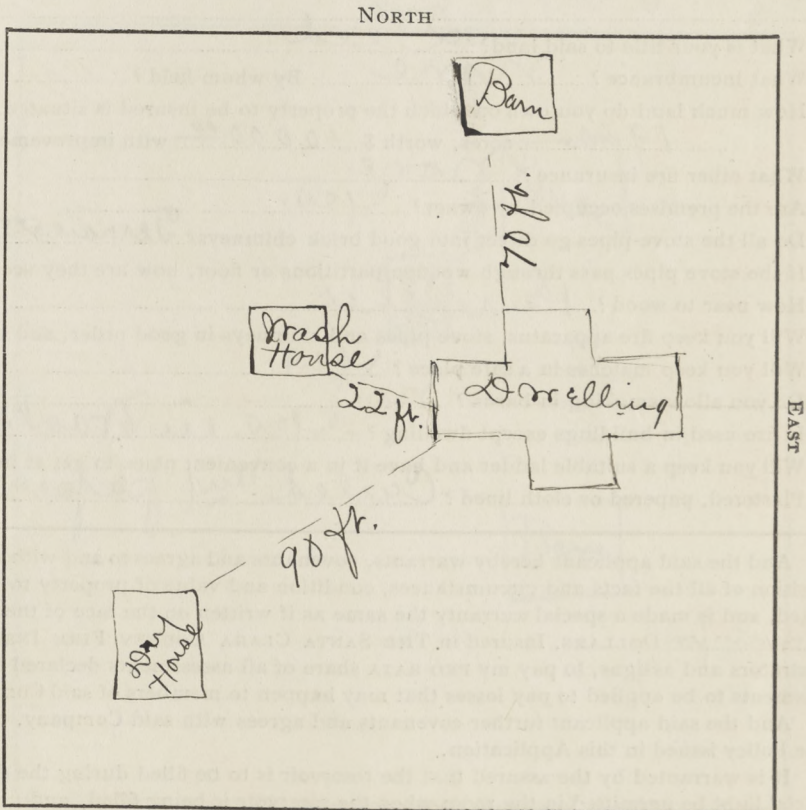

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Classification of Risks

First class dwellings and contents detached;
basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds $\frac{1}{2}$ to basis rate; Rate, 15c on \$100.
4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds $\frac{1}{4}$ to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue... Rate 17c on \$100.
Exposure and stove-pipe... Rate 25c on \$100.
Exposure and cloth lining... Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class. Tank houses if near dwelling, rate with it. If close to barn, rate with barn.

Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.

Barns, (Exposure), rate $2\frac{1}{2}$ times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100.

Steam engines, Boilers, etc. Rate 40c on \$100.

Fruit driers, 80c on \$100.

School houses and Churches, detached; Rate, 20c on \$100.

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

House and Barn No. 1 being situate about 2 1/2 miles South of Mountain View, on Sleeper Ave., about 3/4 of a mile East of Grant Rd.
House and Barn No 2 being situate about 2 1/2 miles South of Mountain View, on Sleeper Ave., about 3/4 of a mile East of Grant Rd.

1. What is your title to said land? Deed
2. What incumbrance? none By whom held?
3. How much land do you own on which the property to be insured is situated, and what is its value? 6 acres, worth \$ 3500.00 with improvements.
4. What other fire insurance? none
5. Are the premises occupied by owner? Not at present - a son occupies place.
6. Do all the stove-pipes go direct into good brick chimneys? no - into Terra cotta.
7. If the stove pipes pass through wooden partitions or floor, how are they secured?
8. How near to wood? about 2 inches.
9. Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? yes.
10. Will you keep matches in a safe place? yes.
11. Do you allow smoking in barns? no.
12. Is fire used in buildings except dwelling? no.
13. Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? yes.
14. Plastered, papered or cloth lined? Cloth lined closely latched and papered - Ceiled with upper story plastered in 1912.

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and true exposition of all the facts and circumstances, condition and value of property to be insured, and is offered as a basis of the insurance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration of Fifteen

Hundred DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, administrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall be kept within the building.

IN WITNESS WHEREOF, The signature of the undersigned is affixed, this 7 day of Dec 1914.

Policy Fee, \$ 2.50
Mill " \$ 8.40
Total, \$ 10.90

Paid - Dec. 7. 1914.

No. 2466

APPLICATION

OF

Mrs. Ed. Clark
Route #19,
Box 19,
San Jose, Cal.

Classification of Risks

First class dwellings and contents detached;
basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
 2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
 3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds $\frac{1}{2}$ to basis rate; Rate, 15c on \$100.
- Exposure (dwelling less than 60 feet from buildings classed as exposures) adds $\frac{1}{4}$ to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue... Rate 17c on \$100.
Exposure and stove-pipe... Rate 25c on \$100.
Exposure and cloth lining... Rate 20c on \$100.
Galvanized iron flues, incased in cement, or in ger flues with air chamber between, are used with brick chimney, and rate as first-class. Bank houses if near dwelling, rate with it. If set to barn, rate with barn.
Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.
Barns, (Exposure), rate $2\frac{1}{2}$ times basis rate; Rate, 25c on \$100.
Fruit houses and Fruit driers (private), sheds, rops, store houses, and other out-buildings, detached. Rate 20c on \$100.
Dairies and cheese factories; Rate 20c on \$100.
Steam engines, Boilers, etc. Rate 40c on \$100.
Fruit driers, 80c on \$100.
School houses and Churches, detached; Rate, 10c on \$100.
Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.
When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Classification of Risks

First class dwellings and contents detached;
basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds 1/2 to basis rate; Rate, 15c on \$100.
4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds 1/4 to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue Rate 17c on \$100.
Exposure and stove-pipe Rate 25c on \$100.
Exposure and cloth lining Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class. Tank houses if near dwelling, rate with it. If close to barn, rate with barn.

Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.

Barns, (Exposure), rate 2 1/2 times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100. Steam engines, Boilers, etc. Rate 40c on \$100. Fruit driers, 80c on \$100.

School houses and Churches, detached; Rate, 20c on \$100.

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

WALTER G. FITZGERALD
ATTORNEY-AT-LAW
GILROY, CAL.

February 7, 1916.

Santa Clara County Fire Ins. Co.,
San Jose, Cal.,

Gentlemen:-

At request of Fred J. Arnberg, I am sending you
policy No. 2475 issued by your Company to him.

I note the policy was written Dec. 17, 1914. Mr. Arnberg
secured a deed of the property in January 1916, and at that
time gave a Mortgage to Jens J. Peterson to secure the sum of
\$3950. part of the purchase price, and subsequent thereto
Mr. Peterson assigned the Mortgage to Bank of Gilroy.

Will you attach to the policy a Mortgage clause making the
loss on buildings payable to Bank of Gilroy, as Mortgagee.

I understand that when the loss is made payable to
Bank of Gilroy as Mortgagee, that will not make the Bank liable
for any part of any liability of your Company, and that the
policy cannot be cancelled by your Company for non-payment of
assessments without first giving the Mortgagee notice of such
assessments.

Let me know if I am correct in this view.

Respectfully yours,

Walter G. Fitzgerald

Classification of Risks

First class dwellings and contents detached; basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds 1/2 to basis rate; Rate, 15c on \$100.
4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds 1/4 to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue... Rate 17c on \$100.
Exposure and stove-pipe... Rate 25c on \$100.
Exposure and cloth lining... Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class.

Tank houses if near dwelling, rate with it. If close to barn, rate with barn.

Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.

Barns, (Exposure), rate 2 1/2 times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100. Steam engines, Boilers, etc. Rate 40c on \$100. Fruit driers, 80c on \$100.

School houses and Churches, detached; Rate, 20c on \$100. Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

Barns, (Exposure), rate 2 1/2 times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100. Steam engines, Boilers, etc. Rate 40c on \$100. Fruit driers, 80c on \$100.

School houses and Churches, detached; Rate, 20c on \$100.

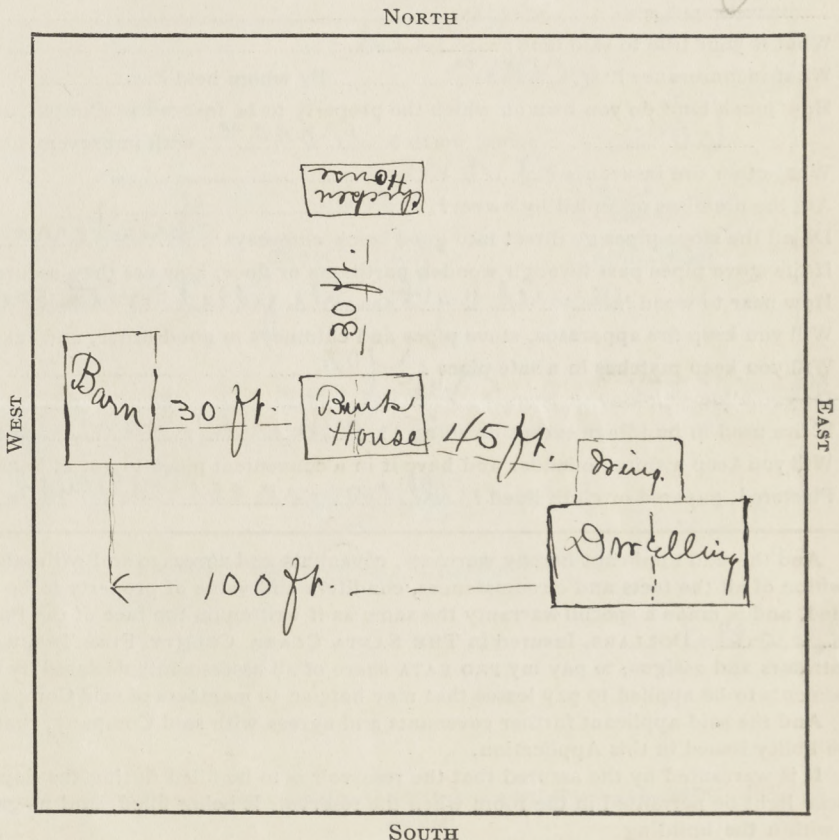

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

Mailed Jan 8

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

- Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class.
- Tank houses if near dwelling, rate with it. If close to barn, rate with barn.
- Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.
- Barns, (Exposure), rate 2½ times basis rate; Rate, 25c on \$100.
- Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.
- Dairies and cheese factories; Rate 20c on \$100.
- Steam engines, Boilers, etc. Rate 40c on \$100.
- Fruit driers, 80c on \$100.
- School houses and Churches, detached; Rate, 20c on \$100.
- Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

NORTH

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Stratton's House, across street, insured in this Co., about 500 yds away.

- If the stove pipes pass through wooden partitions or floor, how are they secured? yes
- How near to wood? yes
- Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? yes
- Will you keep matches in a safe place? yes
- Do you allow smoking in barns? yes
- Is fire used in buildings except dwelling? No
- Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? yes
- Plastered, papered or cloth lined? Plastered

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and true exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the insurance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration of eighteen hundred DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, administrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall be kept within the building.

IN WITNESS WHEREOF, The signature of the undersigned is affixed, this 8 day of Feb 1915

Classification of Risks

First class dwellings and contents detached; basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.
3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds 1/2 to basis rate; Rate, 15c on \$100.
4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds 1/2 to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue... Rate 17c on \$100.
Exposure and stove-pipe... Rate 25c on \$100.
Exposure and cloth lining... Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class. Tank houses if near dwelling, rate with it. If close to barn, rate with barn.

Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.
Barns, (Exposure), rate 2 1/2 times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100.
Steam engines, Boilers, etc. Rate 40c on \$100.
Fruit driers, 80c on \$100.
School houses and Churches, detached; Rate, 20c on \$100.

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

mailed Feb. 17.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Miss Taylor

Saratoga Nov 27 1914

I called on Mr. Vossing yesterday and in case the application the property belongs to his mother. As you will see there is a garage only thirty feet from the dwelling, he wanted to insure the ^{fuel room} garage but as I was not sure as to the rate, we left it out with the understanding it could be added later without a new policy, if you do not care to make a rating ask Mr. Pettit about it the first time he is in. The insurance on the house has about one year to run.

In regard to the Langlet property the valuation is much too high \$3000 is enough for the house Barn about right \$200 Tank house joins the house \$250

House 32x40 feet

Barn 22x30 sheds on both sides 12x22

I will call the first time I am in town

Respectfully

L. J. Church

P.S. The tenant in the Langlet house has his goods insured now did not seem to care to tell

much about it

Eden Vale Santa Clara Co. Nov 14-th 1912

Santa Clara County Fire Insurance Co.,

San Jose, Calif.

Gentlemen :-

As requested I have inspected the H.G. Keesling property at Eden Vale and think the amount of insurance requested on the same is not excessive.

The barn although not large is built on a good concrete foundation, well built throughout, nicely finished inside and the outside is finished in upto-date rustic.

The tank house is quite tall and finished up to match the barn. Both buildings are in excellent repair. The only thing I can see against the risk is the fact that no one lives on the place. The buildings are off the line of travel so there is not so much danger from strangers trespassing.

Very respectfully yours

E. Van Every.....
